Response to Election

Applicant's election without traverse of Claims 1-21 in Paper No.9 is acknowledged.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 and 7-9 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Brennan et al.(U.S.Pat.6,076,013).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 10-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Brennan in view of Sievers et al.(U.S.Pat.5,941,813).

Brennen discloses an apparatus and method for treating heart failure that shows many of the features of the claimed invention but fails to show super elastic alloys/ Sievers discloses a cardiac assist device that discloses a super elastic support structure. It would have been obvious

Art Unit: 3742

to one of ordinary skill in the art at the time of the claimed invention to use super elastic material as taught by Sievers so as to maintain shape memory.

Allowable Subject Matter

Claims 5 an 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel I. Robinson whose telephone number is 703 306-9043. The examiner can normally be reached on M-F 5:30am-2:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Teresa Walberg can be reached on 703 308-1327. The fax phone numbers for the organization where this application or proceeding is assigned are 872-9302 for regular communications and 872-9303 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 308-0861.

DANIEL ROBINSON
